

Gartner “Strong Positive” Rating for Invoice Insight *Study Sites “Excellent” Customer Service Rating*

Manassas, VA. – February 11th, 2008

Invoice Insight (www.invoiceinsight.com), a leading Software-as-a-Service (SaaS) telecom expense and asset management provider, has received a “Strong Positive” rating in Gartner’s just-released *MarketScope for Telecom Expense Management, Worldwide, 2H07*.

With the publication of this study, Invoice Insight is the only company to have received the highest rating given by Gartner analysts for three consecutive years. Invoice Insight is especially proud that customer satisfaction was a key driver in this year’s report. As the study reports: “In the Gartner [customer] satisfaction survey, Invoice Insight has received excellent ratings.”

Invoice Insight is a unique provider of TEM solutions in several ways. Its ability to deliver a global Software-as-a-Service solution to organizations both large and small, as well as its unified platform for fixed and mobile communications management are both strong differentiators.

“Executing in this rapidly changing market is difficult – it requires strong IT capabilities, domain expertise and razor-sharp processes. I’m proud of our team and grateful to our customers for helping us extend our success” says David Spofford, CEO and co-Founder of Invoice Insight. “Gartner’s recognition of Invoice Insight’s relationships with its business partners is also gratifying, as our network of partners has contributed significantly to our growth and success.”

About Invoice Insight, Inc.

Invoice Insight is the leading provider of fixed and mobile expense and asset management solutions delivered in the Software as a Service model. Invoice Insight's model allows for rapid implementation, low cost of ownership, and an agile business model more akin to a service relationship than to a traditional software deployment. Invoice Insight provides technology and outsourcing solutions to the mid-size and large commercial markets, as well as to government users of telecom services.

About the MarketScope

The MarketScope is copyrighted February 7, 2008 by Gartner, Inc. and is reused with permission. The MarketScope is an evaluation of a marketplace at and for a specific time period. It depicts Gartner's analysis of how certain vendors measure against criteria for that marketplace, as defined by Gartner. Gartner does not endorse any vendor, product or service depicted in the MarketScope, and does not advise technology users to select only those vendors with the highest rating.
